- Quantitative Coursework (all graded A+)

Introduction to Linear Algebra, Mathematical Finance, Differential Equations, Mathematical Analysis, Statistics, Calculus for Business, Introductory Statistics for Economists, Mathematics for Economists

RESEARCH INTEREST

Labor economics with a focus on structural shifts in industries

PUBLICATION & WORKING PAPERS

[1] Labor Hour Spillovers and Crowd-out of Educational Spending: Evidence from Korea's Work Hour Reform

Solo-authored; submitted to the 26th Korean Economic Review International Conference

- Estimated inter-firm spillover effects of labor hours using instrumental variable techniques with panel data
- Developed a heterogeneous-agent overlapping generations (OLG) model to analyze implications for fertility and income inequality

[2] Potential Risks from COVID-19 Responses and Liquidity Expansion

With Jin Ick (NABO), et al.; published in 2021

- Conducted comparative analysis of fiscal policy responses across countries, included in a series of four distinct policy studies

[3] Disaster Insurance Implementation and Financial Management Analysis

Solo-authored; published in NABO Policy Report 2017

- Applied expectation maximization algorithms and logistic regression models to assess financial soundness of government reinsurance programs and distributional equity of insurance benefits
- Cited by:
 - NABO (2023), Analysis of Major Programs in the Budget Proposal: Disaster Insurance, 2024 *Annual Budget Review*
 - Chae Honggi, et al. (2023), *Journal of Rural Development*, 46(1): 1-26

[4] Employment Conditions in Small and Medium-Sized Cities

Solo-authored; published in NABO Industrial Trends & Issues (2018)

- Used a linear probability model to assess disparities in employment conditions between growing and shrinking cities
- **Media coverage:** “Workers in population-growing cities earned, on average, 350,000 KRW more per month than those in shrinking cities.” – *Kyunghyang Shinmun*, April 10, 2018

PROFESSIONAL EXPERIENCE

Parliamentary Officer

Trade, Industry, Energy, SMEs, and Startups Committee – National Assembly 2025
